

**JOHN MALES, SANILAC COUNTY  
ADMINISTRATOR**

"Sanilac County has been assisted very effectively by the MAC Service Corporation. When we were looking to change our benefit provider and engage in various strategies to save money, MACSC was instrumental in finding an agency that had significant expertise in cost containment and health care options for our employees."

THE MICHIGAN ASSOCIATION OF COUNTIES SERVICE CORPORATION (MACSC) was established in 1986 to provide a variety of cost savings programs and services to Michigan Association of Counties members as well as county entities and agencies within member counties. Our program participants include, but is not limited to the following; member counties, medical care facilities, public transits, road commissions and public health departments. The services and programs we provide strengthen and enhance member employee benefit packages and provide members with the opportunity to purchase needed services at significant savings.

The MACSC is managed by a seven-member board of directors who oversee the progress of existing programs and identify the possibility of developing new programs for the benefit of Michigan Association of Counties members.
